E49810 - Ultra Sonic Wind Gauge INSTRUCTIONS

Gill's Ultra-Sonic Wind Gauge is the latest development for wind speed measurements in the Track and Field world.

Includes anemometer, hand held display, tripod, and padded case.

The main features of USWG are:

- Highly accurate and reliable wind velocity measurement
- Color LCD display of average wind velocity
- Continuous wind velocity reading
- Automatic interface to FinishLynx photo-finish system
- Powered by 5 x AA size batteries
- Automatic shut off for power saving
- Track and field sport wind velocity measurement
