## 93035 INDOOR WEIGHT GAUGE CUSTOMER INSTRUCTIONS

Hang the weight on the gauge so that the handle is over the hole in the top arm.

Check that the gauge is at the correct height by sticking a tape measure down through the hole in the top arm and measuring to the top of the knob. This should be 41 cm (16.1417") by rule.

If the weight hits the knob, it is longer than 41 cm (16.1417") and therefore out of rule.

THIS WARNING IS GIVEN IN COMPLIANCE  
WITH CALIFORNIA'S PROPOSITION 65:
