EVERY FACILITY IS UNIQUE

Decide which is the best fit for yours.

WE DO IMPOSSIBLE.

Planning a standout sports facility that's made to last and flexible enough to do it all is a challenge we meet every day. Whether that's a high volume athletic center, a community recreation facility, or a school gymnasium, facility equipment is no longer just about the mechanical, but also how new technologies and responsiveness can improve the customer experience.

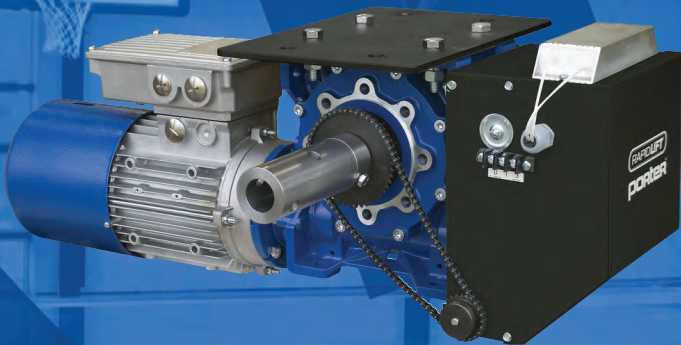

Partner with Porter and build on 150 years of elevating every sport we serve.

1835 SERIES

Satisfy the highest levels of competition and performance with the new arena-level portable from Porter, and eliminate the universal pains previously experienced with portable backstops.

The 1835 portable offers breakthroughs in the installation and setup process. Porter's exclusive self-docking tray anchor system (Patent No. 10,238,944) allows perfect alignment into a secured game position, eliminating hassles. Special locator pins provide additional control and user support during the setup process. Once positioned, the 1835 portable offers effortless spring-assisted setup for play.

Meticulously crafted protective pads integrate perfectly around the base and stanchion of the portable to enhance facility appearance. Choose from a full-range of vinyl pad colors and vibrant powder coat frame colors to complete your

portable design. Optional full-color protective pad graphics offer

- EXCLUSIVE SELF-DOCKING ANCHOR TRAY (Patent No. 10,238,944)

1135 SERIES

This versatile portable backstop combines high-level play capability with simplified storage and maneuvering capabilities.

We are proud to introduce the 1135 to the Porter Athletic Portable lineup. The 1135 unit is a spring assisted, folding portable that provides extra stability and meets all competition needs.

The 1135 is anchored and secured with two heavy duty threaded rods that screw into specially designed floor anchors. Two leveling feet in the front of the unit allow for precision adjustment of the height setting and provide stability for the unit. The 1135 features Porter's Center-Strut direct goal attachment, allowing for easy goal and backboard installation. The direct goal-mount system also withstands slam-dunk action and prevents glass backboards from shattering. This portable is more easily stored and maneuvered than traditional arena competition portables. The 1135 is guided by two rigid, dual-wheel casters and two swivel casters.

- CENTER-STRUT ATTACHMENT
- THREADED KNOB TIE-DOWN SYSTEM
- SCREW-TYPE LEVELING JACKS
- 6 NON-MARKING RUBBER CASTER WHEELS
- 2" THICK FRONT PADDING (7' TALL)
- ADJUSTABLE TO 8', 9', AND 10' GOAL HEIGHTS

735 SERIES

New-and-improved design features make this portable a top choice for both competitive team practices and recreational play.

A unique tension spring assist folding mechanism concealed in the base provides instant and effortless height adjustments from storage position to 8' 9' or 10' goal heights. An improved anchoring method includes one tie-down threaded anchor at the rear position and two screw-type level jacks in the front for simplified setup. Updated frame and boom construction provides maximum durability.

Porter's Center-Strut direct goal-mount system withstands slam dunking and prevents glass backboards from shattering.

PORTABLE ACCESSORIES

12

1835 Floor Extension Bracket

Optional tie down bracket recommended for portable floor with less than 4' from the edge of the floor to the rear of the portable. Includes bracket, chain, and anchor.

FITG00430

Floating Floor Type Anchor

Two part system to allow movement and expansion of wood floor where flooring does not exceed $3\frac{7}{8}$ " total thickness. Anchor installs after finished floor is in place by means of a double acting masonry anchor. 5" chrome or brass plated cover assembly consists of molded plastic recessed mounting flange, cork gasket and swivel type retainer pin. Specify extended shaft handwheel for use on floor mounted equipment.

- 00249000 Anchor w/ Chrome Cover
- 00249200 Anchor w/ Brass Cover
- HAND00001000 Handwheel w/ Stud $\frac{1}{2}$ "-3 $\frac{1}{2}$ "
- HAND000027000 Handwheel w/ Stud $\frac{1}{2}$ "-2 $\frac{1}{4}$ "
- HAND000067000 Handwheel w/ Stud $\frac{1}{2}$ "-4"

Sleeper Anchor

Designed for use in sleeper floors where anchorage into both concrete slab and wood floor is desirable. Top plate is $3\frac{1}{2}$ " diameter and is threaded to provide adjustment to floor surface.

00244000

Portable Floor Type Anchor

Designed specifically for installation on a professional type portable wood flooring system. Anchor is identical to the $3\frac{1}{2}$ " diameter chrome plated top plate assembly as used on the No. 00242100 floor anchor with the addition of flat head machine screws and a heavy steel reinforcing plate which is mounted under the portable floor panels to properly distribute loading on the wood sections.

00242900

Expansion Anchor

The industry's favorite. Ideal where there is at least 6" of concrete. Expansion shield provides super holding power. Anchor is $1\frac{1}{2}$ " diameter minimizing metal surface on gym floor. Top portion of anchor may be removed for cleaning and washers may be added or removed to keep surface of anchor flush with floor.

00247100

Thin Concrete Anchor

Designed for maximum holding power through thin channel lock wood or synthetic floors into concrete sub-floors of minimal thickness. Four double acting expansion anchors provide an ultimate pull-out load of 8,200 pounds when properly installed. Top plate is $3\frac{1}{2}$ " diameter and is polished and chrome plated.

00242100

Center Strut Features:

Center-Strut mounts directly to the 6 5/8" diameter vertical drop frame support.

The glass backboard mounts to Center-Strut goal support with two independent bolts to provide Porter's exclusive backboard/goal mounting system.

Goal mounts independently with four bolts extending through the backboard and into the Center-Strut mounting plate to eliminate any stress on the backboard.

Powder Coat Colors:

**White and Black colors are available in Gloss or Flat finishes.

**900
SERIES**

Porter 900 Series backstops provide the athletic facility designer with the widest variety of product applications while conforming to the latest regulations for championship competition.

This versatile product line comes standard with a fully welded frame up to a 32' attachment height, featuring a 6 5/8" single drop frame with heavy diagonal sway bracing designed and constructed for years of reliable service. A bolt-together frame with internal bracing provides unequaled stability for units up to a 45' height while still allowing installation access through gymnasium doorways.

Backstops are not one size fits all, which is why Porter backstops are custom engineered with the proper supports, bracing, and dimensions to fit your building. You can count on the high performance and safety that defines Porter products.

- POWR-LOK® BRACE HINGES
- ADJUSTABLE MAST HINGES
- OFFSET HINGE WEIGHT LOCK SYSTEM
- HEAVY DIAGONAL SWAY BRACING

 RAPIDLIFT® CAPABLE

WALL MOUNT BACKSTOPS

**Available for almost any backboard, goal or height adjuster.*

16

219 Up-Fold Series

Backstop folds up with hoisting winch for compact storage of both framework and backboard. Special offset hinge fitting arrangement allows backstop to fold nearly flat against a wall. Backstop extension is available in any dimension from 4' to 18' from the wall.

RECOMMENDED FOR ALL UP-FOLD WALL MOUNT BACKSTOPS:

- 10797120 Safety Strap Kit (For Unit Without Height Adjuster)
- 10797121 Safety Strap Kit (For Unit With Height Adjuster)

220 Side-Fold Series

Backstop folds to side for economical, compact storage. This style is recommended where low ceiling height or obstructions prohibit other folding methods. Backstop is operational from the floor with a telescoping diagonal brace system with a special locking mechanism. Offset hinge fitting allows backstop to fold nearly flat against a wall. Extension is available in any dimension from 4' to 12' from the wall.

312 Stationary Series

Simple, rigid diagonally braced design supports backboard at any extension from .5' to 18' from the wall. Porter's Center-Strut backstops are designed with a direct-mount system which provides a structural mounting support plate directly behind the goal eliminating any strain on the backboard during aggressive play.

Column Mount System

Designed for mounting a fan-shaped backboard and goal to an exposed straight or sloped column (maximum flange width of 15"). Center-Strut direct goal mount design eliminates any strain on the backboard during aggressive play. Unit includes extension frame with special attachment assemblies and mounting hardware only. Specify fan backboard and goal separately. Available with Center-Strut manual height adjustment feature which allows goal height settings from 8'-10'. We recommend column padding for player safety.

- 00310100
- 00311100

- Fixed Height System
- Height Adjuster System

No. 00904506 Single Drop Electric Height Adjuster

Center-Strut Height Adjusters

Available on the ceiling suspended or wall mounted backstop selection of your choice, along with the option to choose either manual or electric operation. The goal height is easily adjustable to any height from 8' to 10' to accommodate all age levels. Height settings are clearly visible from the floor for accurate adjustments. Electric height adjuster unit incorporates a compact motor to raise and lower the goal height electrically from 8' and 10'.

Optional cordless drill unit allows for power operation of Manual Center-Strut Height Adjuster.

 **1 YEAR LIMITED WARRANTY**

Height Adjuster Options:

- Powr-Touch Systems
- Key Switch
- SportSonic II
- Powr-Stick
- Manual

WINCHES & ACCESSORIES

For facilities hosting multiple back-to-back events, the NEW Porter RAPIDLIFT® winch can help turn over the next activity up to 3x as fast. See page 62.

Electric Winch

These equipment winch motors are manufactured to Porter's superior quality and safety requirements, and Porter reputation for durable, high-quality backstop winches in facilities all over the globe. The 712/713 winches come with many improvements and features including a 4" OD extended machined aluminum cable drum allowing 41 ft. of cable capacity on a single layer, an external belt tensioner for easier adjustments and maintenance, and a cable tensioner to keep the cable in place during slack conditions.

The 712/713 basketball backstop winches will operate with Porter's 3-position key switch, Powr-Touch® systems, or SportSonic® II wireless control system.

712

Big Shot® Pro System

The Big Shot Pro System features a rugged support system with anchor bolt mounting. Glass backboard has a weather resistant, powder coated, unitized steel rear support structure and is fitted in an aluminum frame to provide superior ball rebound. Official white perimeter and target area markings are silk screened on the backside to prevent wear.

Includes the Powr-Flex goal, a flex rim that protects players and equipment during slam-dunk with a concealed shock absorber.

Includes backboard system, goal, nylon net, pole pad, backboard pad, & mounting hardware. 6" pole with 4' offset and 72" x 42" backboard.

9572 Pro Package

Includes System, Pole and Backboard Pad.

Big Shot® Collegiate System

Includes the Powr-Flex goal

Includes backboard system, goal, nylon net, & mounting hardware. 5" pole with 2'6" offset and 60" x 36" backboard.

9571 Collegiate Package

Includes System, Pole and Backboard Pad.

Championship System

Rigid feel and authentic rebound characteristics make this unit the best value in home basketball systems. 4" square pole has extension arm and sway braces to enhance unit stability. The direct goal mount provides superior strength and rigidity to the 48" x 36" acrylic backboard.

Includes backboard system, goal, nylon net, & mounting hardware.

**1900
SERIES**

The 1900 SERIES POWR-NET Overhead Volleyball System can't be beat when instant and frequent volleyball court set-up is required. The entire volleyball system, including net, judge's stand, and padding quickly and conveniently fold to the overhead storage position electrically.

The narrow profile of the unitized steel support frame contains internal truss-type webbing for excellent stability. Each drop frame is laterally braced by a folding brace system with dual formed steel hinges incorporating torsion springs to lock the unit in playing position for maximum stability. Each drop frame support may be furnished with a Saf-Strap safety lock to comply with operational safety requirements. Single or multiple court systems may be furnished utilizing a single electric winch with up and down limit switch operation. Protective padding that meets all competition requirements is provided on the net height adjustment mechanism as well as the optional judge's platform.

POWR-COURT™ PRO SYSTEM

POWR-COURT PRO SYSTEM

- 1945CXXYY Standard System
- 1945CXXYYSP System With Custom Graphics

REPLACEMENT PARTS

- WINH00113 Powr-Select Winch

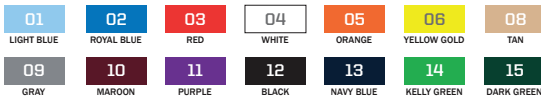

Introducing Powr-Court™ Pro, a truly portable volleyball system. Powr-Court Pro quickly and easily transforms almost any location into a volleyball court. The steel, telescoping standards have infinite height adjustment settings and are welded to ballasted bases. With a ballast of 500lb per base this system is secure, does not require floor anchors, and will not “creep”. One base unit is equipped with a built-in judge’s stand including anti-fatigue mat. The second base unit houses the universal winch. Bases are padded with thick shock absorbing foam and covered in a heavy 19oz vinyl.

The system comes complete with 2 padded bases, a competition net, net antennas, and net height chain. Customize with your choice of color for the vinyl pads and base frame. Custom graphics available on base pads for additional cost. The Powr-Court Pro weldments are backed by a lifetime limited warranty; 1 year warranty on all other parts.

- ✓ Standards are marked with four net heights: 10’s, 12’s, Women’s and Men’s
- ✓ Entire system complies with USAV, NCAA, and NFHS requirements for competition volleyball.

 **10 YEAR LIMITED WARRANTY**

Vinyl Colors: (xx)

POWR-COURT™ SYSTEM

A completely portable system utilizing Powr-Line uprights that is designed for competition and recreational play. The 750lb ballast base and no-creep foot pad keep the base in position during use. The system’s crank lifts the base and allows it to maneuver. Upgrade your system by adding an optional fitted judge’s stand and customized upright padding. Includes net, antenna, and padding.

Universal Competition Volleyball Nets

Superior quality construction throughout makes this heavy-duty net an ideal companion to any of Porter's competition volleyball systems. Heavy 4" square netting is provided in black, #24 nylon cord which exceeds specification requirements for all levels of competition. Kevlar Fibercord top cable is available in two lengths. Six, one-inch wide polypropylene tension straps working in conjunction with composite fiberglass dowels hidden in the end pockets provide unmatched appearance and the ultimate in net tension and performance. All nets measure 32' x 39".

2295
2295XL

Powr-Sand Outdoor Volleyball Net

The Powr-Sand Outdoor Volleyball net features a tough, durable Kevlar top cable, highly-visible yellow vinyl, and three nylon tensioning straps for a taught fit. Measures 27'10" x 3'3".

2256

Powr-Select™ Winch

For volleyball facilities who are looking for a dependable net tensioning winch. The Porter Powr-Select Winch is engineered to provide a consistent and smooth operation for the long-term. Compatible with all systems from 3" to 3.5".

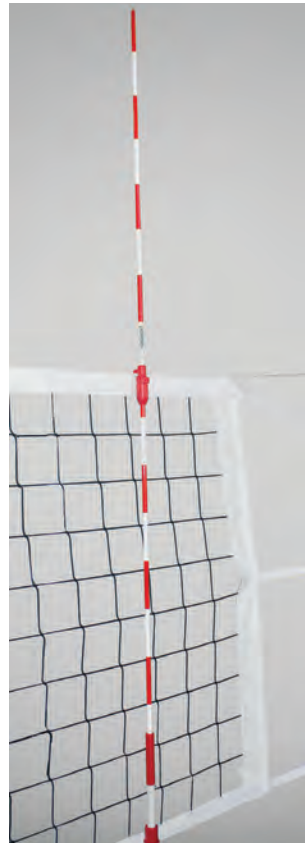

WINH00113

Replacement Winch Handle Available Online

00546000

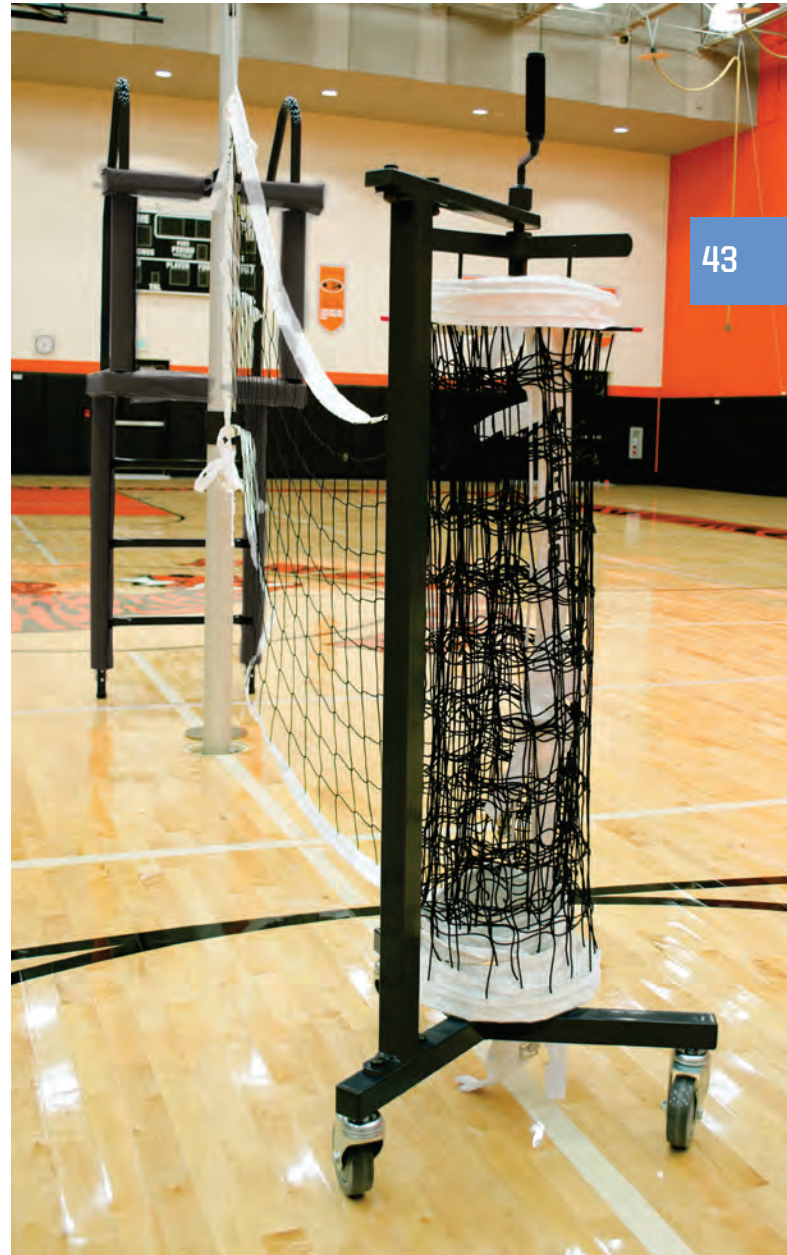

2297

Net Antennas & Boundary Markers

International quality net antenna with molded, positive locking type clamps for securing to the top and bottom net hems. Single unit prevents lost parts. Meets all FIVB, USAV, NCAA, and NFHS competition requirements.

Boundary markers are 2" wide white polyester reinforced vinyl straps with hook & loop attachment strips to secure to the net.

- 2297 Powr-Select Net Antenna
- 00546000 Boundary Marker w/ Antenna

Sidewinder Net Storage System

Easily wind your volleyball nets on a free standing, transportable rack to keep your nets clean and tangle-free. The storage racks spin easily to neatly grasp and store the headband of the nets as unit glides across the floor on frictionless swivel type casters. Heavy-duty all steel construction has a durable powder-coated finish.

- 00821100 Single (stores 1 net)
- 00823100 Triple (stores 3 nets)

Fair Height Net Chain

Measures the distance from the top of the net tape to the playing surface for a consistent and fair net height. The top hook fastens to the net, and orange markers along the chain represent four competition net height standards: 6'6", 7-0", 7'4¹/₈", 7'11⁵/₈"

825

Wall Storage Rack

Storage rack provides a convenient method for storing two volleyball standards in a compact space. Each upright is held in place with a hook-and-loop closure. Wall installation hardware included.

825

825 With 82501 Add-On

Locking Wall Storage Rack

Add this locking front gate mechanism to your existing 825 wall storage rack or purchase both to create a secure storage place for two standards. Includes lock, easy to install.

82501

Powr-Steel Judge's Stand Wall Bracket

Judge's stand wall storage rack compatible with the 779100 fitted judge's stand. This storage solution safely secures the judge's stand to the wall while taking up the smallest floor footprint possible.

99910

Fitted Judge's Stand Wall Bracket

Judge's stand wall storage rack compatible with 00889100 & 00999000 fitted judge's stands. This storage solution safely secures the judge's stand to the wall while taking up the smallest floor footprint possible.

89910

Standard Transporter

Steel boot with non-marking wheels slides easily onto the end of any standard which is then easily rolled to the storage location.

9564

Powr Volleyball Transport System

Convenient, specially designed heavy-duty transport system is equipped to store three full competition volleyball courts complete with standards, protective pads, nets, judge's stand and balls. Rolls easily from gym to storage room on 3½" diameter swivel casters.

- 00403000 3¹/₂"

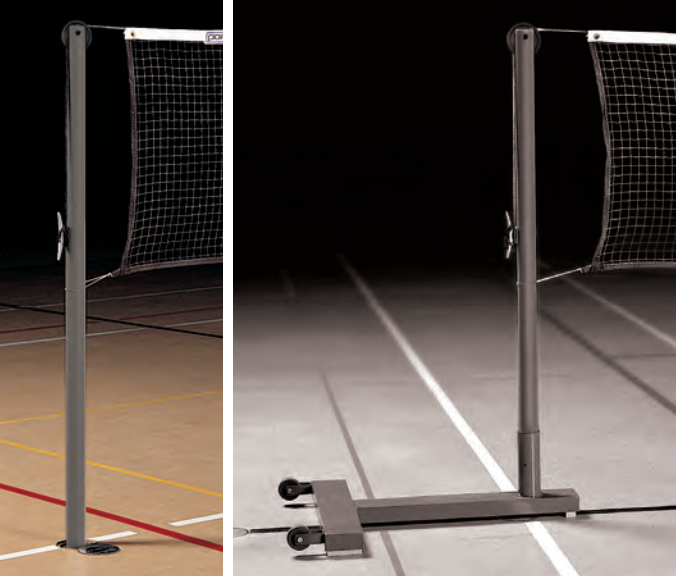

T-Base Standards

The perfect choice for second floor situations when the installation of sleeves is impossible. The compact T-shaped steel base holds 3¹/₂" O.D. standards and provides a three-point, tripod type support with an upright sleeve and tubular gusset to eliminate the need for additional cables or bracing. Available option for Powr-Rib II, Powr-Line, Powr-Trak, and Economy standards. Each T-base require two floor anchors.

- BASE00102001 T-Base w/ Hand Wheel Kit
- HAND00087000 Hand Wheel Kit Only

PORTABLE STANDARDS REQUIRE ANCHORS

GAME STANDARDS

Badminton Standards

Durable 2³/₈" OD powder-coated steel tube uprights are designed for use both inside and outside. Uprights are provided with competition quality top cap guide and net tie-off hardware. Pickleball compatible.

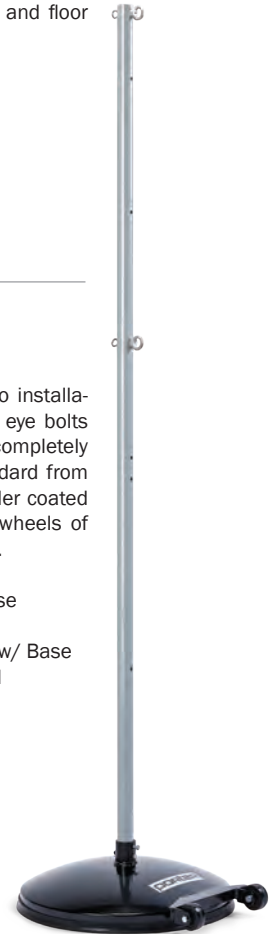

Available as a portable unit. Portable units include heavy T-shaped steel bases with non-marking, anti slip rubber feet for stability without use of floor anchors. Each base has two 3" diameter casters. Net and floor sleeves are not included.

- 764100 Sleeved End Standards
- 764150 Sleeved Center Standard
- 779000 Portable End Standards

Badminton Net

Black mesh net with 1" openings. Net is furnished with attachment cords of sufficient length for use on volleyball standards with 36' centers when desired.

2236110

Combination Game Standards

These cableless sleeve type game standards are perfect for indoor or outdoor fun and recreation. Standards are 2³/₈" OD galvanized for years of durability. Settings for competition badminton, men's and women's volleyball and/or tennis are provided. End and center standards are furnished with ratchet type tensioning reel.

- 761100 End Standards
- 762100 Center Standard
- 00402000 Outdoor Ground Sleeve
- 02254000 Intramural Volleyball Net
- 2236110 Badminton Net
- 02991340 P.E. Tennis Net

Weighted Base Game Standards

Tip it and roll it away! It's that easy to transport. No installation necessary. The steel standard is complete with eye bolts and eye nuts. Non-marking rubber protection ring completely encircles 145 lb domed steel base, preventing standard from sliding and floors from being damaged. Base is powder coated gloss black. Frictionless 3" diameter silent-bearing wheels of gray non-marking synthetic provide effortless mobility.

- 00431000 Volleyball/Badminton Standards w/ Base
Accommodates No. 02254000 volleyball and No. 2236110 badminton nets
- 00431100 Volleyball/Badminton Center Standard w/ Base
- 02201100 Reel for Volleyball/Badminton Standard
- BASE00006 Portable Base Only (No Upright)

Net Tensioning Cords

Tough virgin natural rubber cords provide needed tension for nets. "S" hooks attach to ends for easy use. Recommended for use with weighted type game standards. (Not Shown).

00435000

Wood Floor Anchor

3¹/₂" diameter chrome-plated cover with #14 x 1¹/₂" installation screws.

00242000

Grout Type Anchor

Max. 1¹/₄" in total finished floor thickness above concrete sub floor. 1¹/₂" diameter by 3³/₄" length. Chrome anchor top.

00243000

Thin Concrete Anchor

Four double acting expansion anchors provide a pull-out load of 8,200 lbs. Top plate is 3¹/₂" diameter, chrome plated.

00242100

Cast-In-Slab Anchor

1¹/₄" in total floor thickness above concrete sub floor.

00247000

Sleeper Anchor

Threaded top plate is 3¹/₂" diameter to provide adjustment to floor surface.

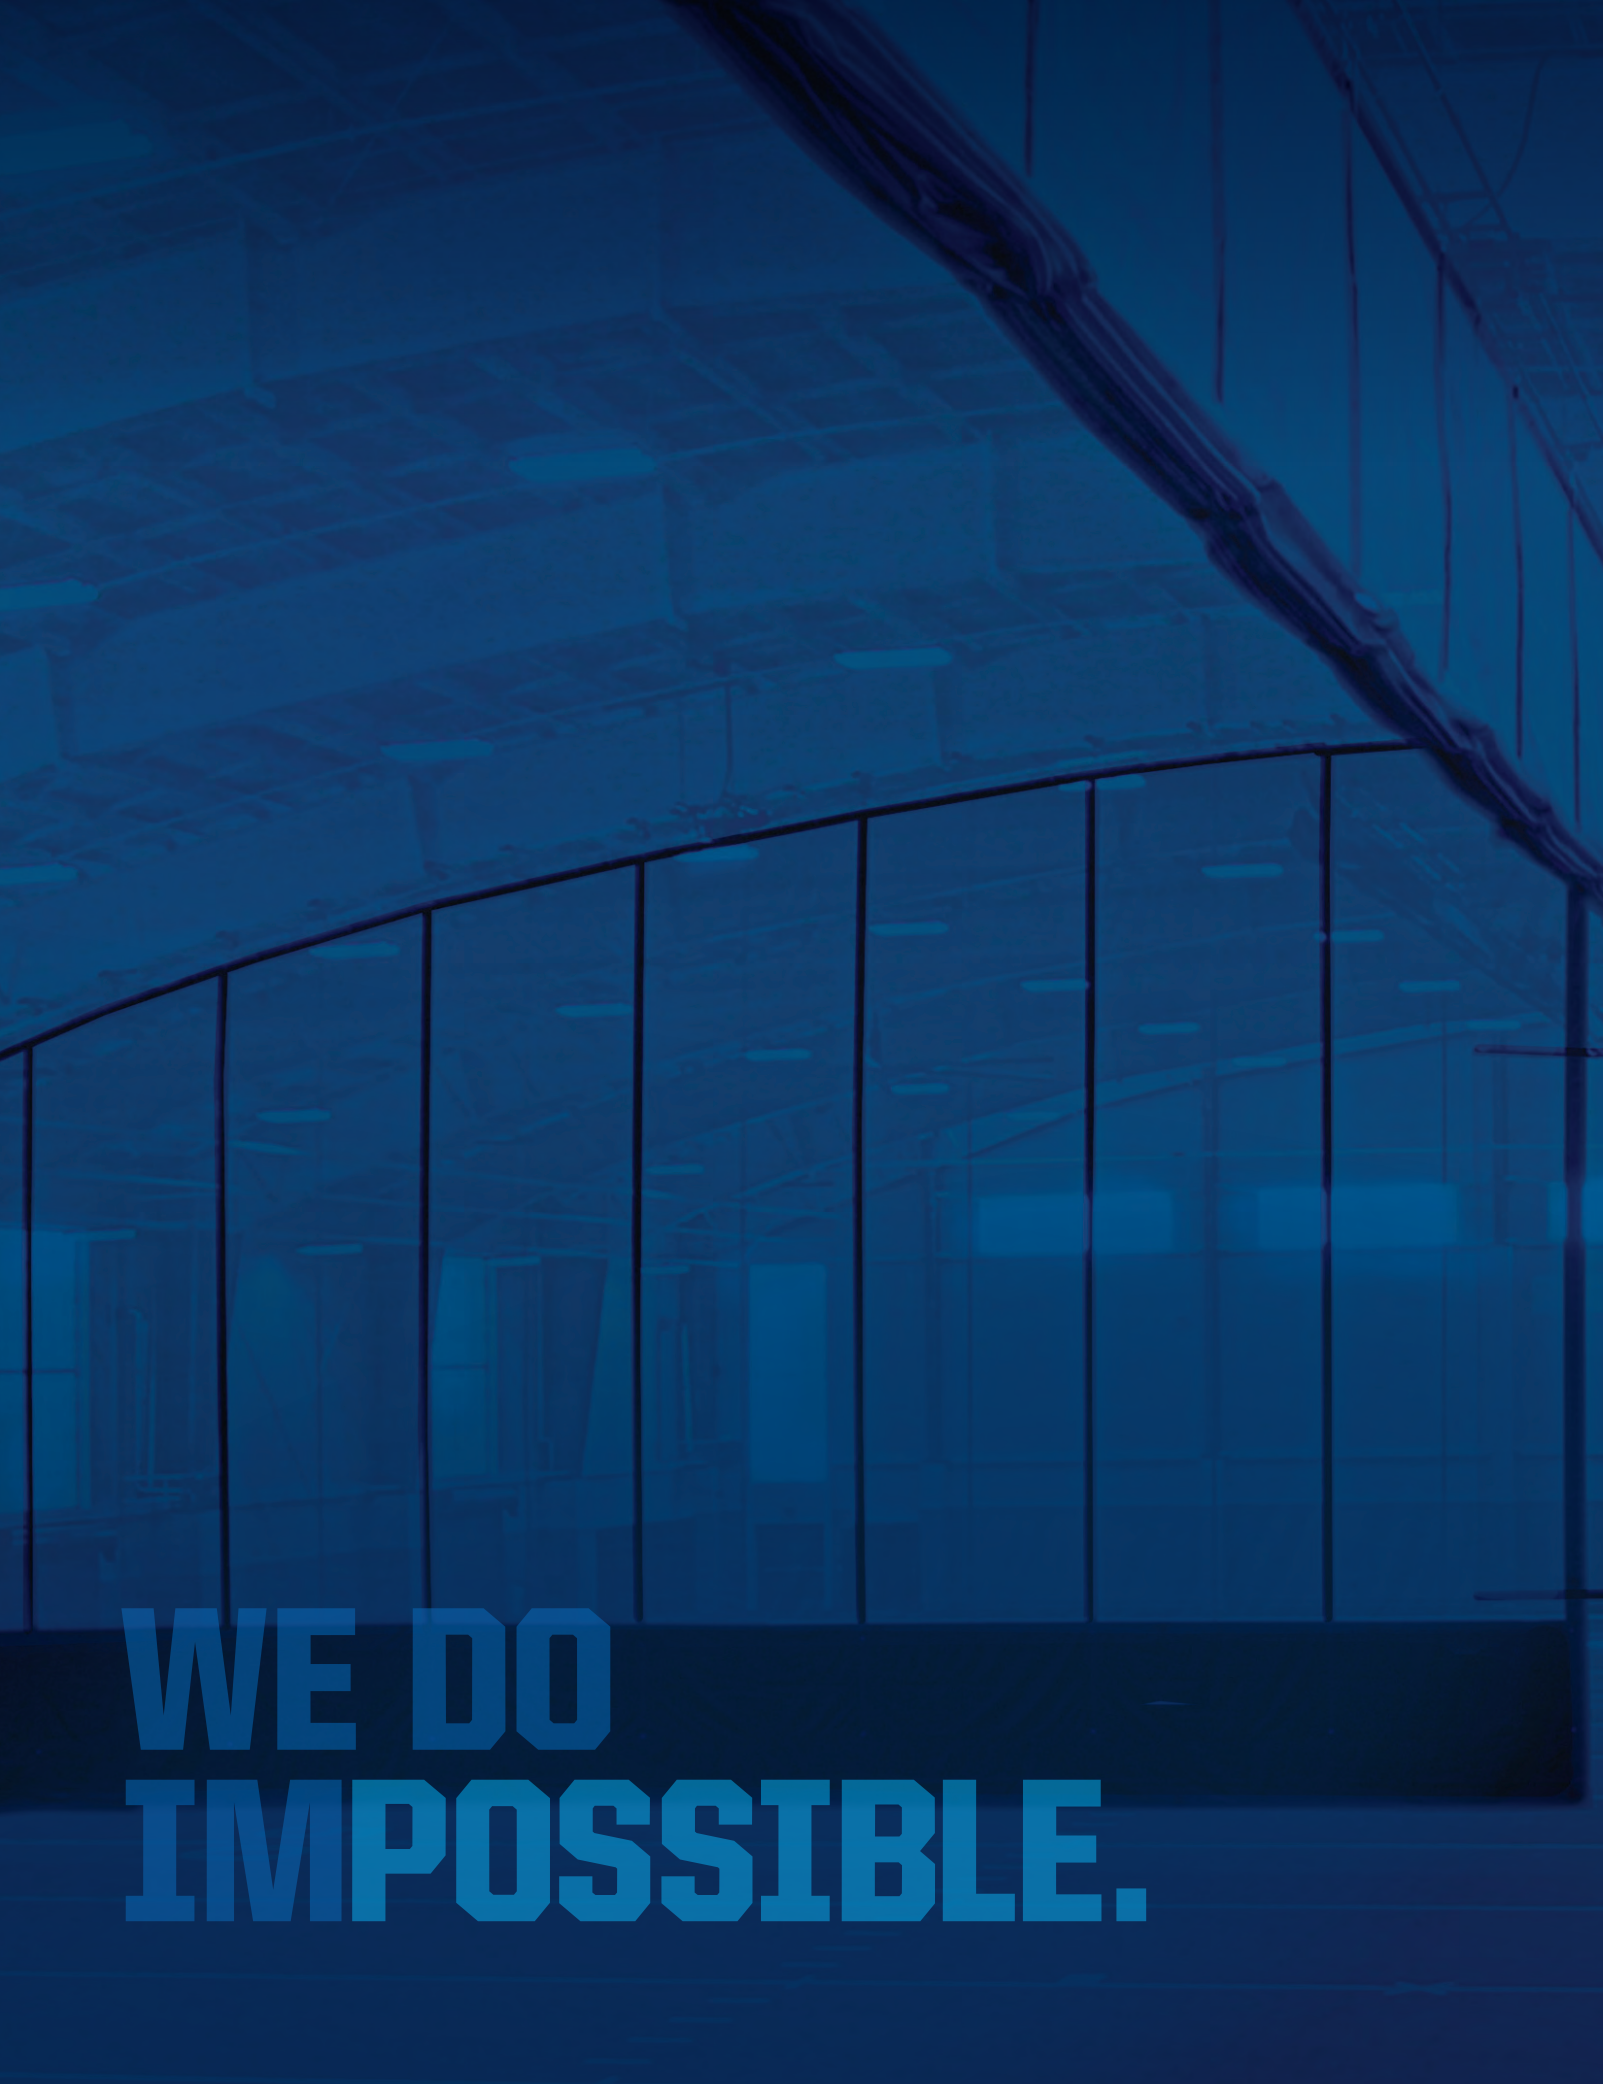

00244000

Expansion Anchor

Ideal with at least 6" of concrete. Anchor is 1¹/₂" diameter. Washers may be added or removed to keep surface of anchor flush with floor.

FACILITIES

FORMFOLD SERIES

FORMFOLD SERIES    

5065

Divider Curtains

These curtains can be composed of any combination of vinyl, mesh, and/or netting materials and can be fabricated to any size. The powerful, single motor system eliminates intricate synchronizer devices found in other large curtain designs. Designs can conform to peak slopes, arches, or single slopes when retracted for maximum clearance

Perimeter Shell Systems

Operable system can be composed of any combination of vinyl, mesh, and/or netting materials. The flexible pulley and cable design eliminates mechanical line shaft components, which can reduce costs and installation time in complex building structures. This is a great option to contain lacrosse balls or baseballs in a large field of space.

Batting Cages

These cages are designed to conform to peak slopes, arches, or single slopes when retracted for maximum clearance. Custom cage sizes and multiple net options are available. Can include separate intermediate dividers to convert the cage from a larger practice space to a more traditional batting tunnel setup.

**FORM
SERIES**

The FORMFOLD series is unlike any other line of athletic facility equipment on the market today. Patented form fold technology can be adapted to a number of operable facility products such as divider curtain, batting cages, perimeter net systems, and more!

Form fold products can fold to a variety of unique roof contours to provide maximum clearance for play when stored. These systems will extend and retract up to 5 times faster than traditional curtains and cages, saving operators substantial time during setup. Form fold products can be constructed to fit facilities of any size, including regulation size soccer and football field house facilities.

CENTER-ROLL

State of the art design that offers unprecedented operating speeds while eliminating fabric stresses.

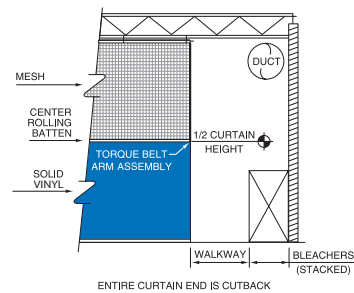

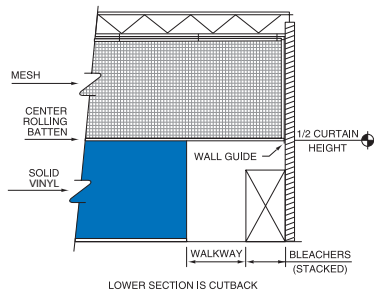

One or both ends of lower fabric (below 3" dia. batten) may be cutback to allow for walkway, bleachers, etc.

30+ FT/MIN SPEED

CUSTOM GRAPHICS AVAILABLE

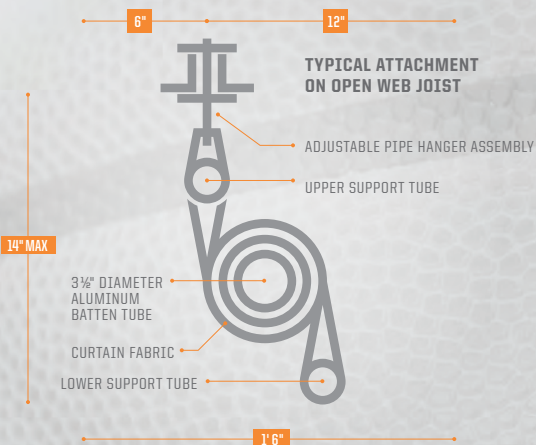

2080
SERIES

With no more hoist cables, straps or overhead support rollers, the 2080 SERIES CENTER-ROLL curtain is the finest divider curtain available for today's modern gymnasium and field house applications. Our lineup of divider curtain products help owners support multi-sport solutions and versatile programming within their facility spaces.

As the aluminum tube rotates, it moves the curtain up, rolling up the top and bottom sections simultaneously. This design allows the Center-Roll to roll up twice as quickly as a standard curtain. The assembly is extremely quiet, features automatic overheating protection, and is permanently lubricated for a maintenance-free operation. The Center-Roll curtain rolls neatly and compactly to within 14" of the ceiling or overhead support structure for maximum clearance. When support structures allow, the curtain will roll up through a one-foot wide opening and store above ceiling areas to further enhance the aesthetics of your installation. The Center-Roll can be designed with special openings for bleachers and passageways. It may also be specified as a dual-wall divider curtain incorporating wall-guide drive assemblies. Curtains come available in solid and mesh, all solid, or all mesh finish.

NETTING SYSTEMS

56

CALL TODAY!

Let our experts help you get the netting system that best fits **your facility**.

Track-Type Walk Draw Curtain

This divider curtain can be easily operated and stacked in the smallest of building recesses or stored flat against a wall. The curtain track is enclosed and is designed with a formed channel to protect the rollers from collecting dust and dirt particles that could hinder smooth operation. Each foot of curtain length requires 1" of stack area. The curtain can be provided as a single section or in bi-parting sections. Standard 2' radius curved track pieces are available for additional track customization. Available in solid and mesh, all solid, all mesh, or netting finish.

TRACK TYPE WALK-DRAW

A system that is easy to operate and simple to maintain, with a design that fits countless applications.

ROLL-UP CURTAIN

ROLL-UP

A strong and durable curtain style, with rolling belts and a striking appearance.

Roll Up Curtain

Featuring the strongest, most durable curtain-hoisting system available, the Roll Up Curtain maintains its smooth, wrinkle-free surface even when rolled up into a compact two feet for maximum clearance. Its clean design withstands the demands of today's high-use facilities. Aluminum trim neatly finishes the curtain's bottom hem, helping to preserve and enhance overall appearance. The curtain is conveniently raised and lowered by means of a maintenance-free hoist system. The curtain can be controlled by Porter's standard key switch, optional Powr-Touch systems or Sportsonic remote system. Available in solid and mesh, all solid, or all mesh.

 1 YEAR LIMITED WARRANTY

Perimeter Fold-Up Curtain

The unique design of the perimeter curtain provides a great way to accommodate curved radius applications, particularly around indoor running tracks. Porter custom-engineers and factory bends the curtain support tubes to match the contours of your facility design. Available in solid and mesh, all solid, all mesh, or netting finish.

690

INDOOR CAGES

Ceiling Suspended Throwing Cage

60

A must for indoor track and field facilities! Now with the turn of a key or push of a button, the cage and doors can be raised or lowered to the correct position. Facilities will no longer waste time moving around portable bases, uprights, heavy ballast containers and hoist netting. No need for large storage areas that take up valuable floor space.

The entire cage stores within 3' of the ceiling and descends by electric operation. The Ceiling Suspended Throwing Cage can be used as a shot put cage or an indoor throwing cage for the weight throw. This system safely protects athletes and officials from errant throws.

Meets and exceeds NCAA and USATF.

Hemp Climbing Ropes

This 1½" rope contains 12-18% mineral oil lubricant by weight for long life and is securely attached within a heavy-duty steel fitting for years of durability. Rubber knots (optional) anchored every 12". Collegiate ropes are finished with a vinyl boot.

Soft Dacron Ropes

Soft Dacron ropes are ideal for elementary physical education programs. The no-twist spun Dacron material is easier on hands than hemp ropes and will wear better than cotton. Hypoallergenic.

Rope Attachment Methods

3½" OD Pipe Clamp

Rope Accessories

Tambourine

3/8" lacquered plywood tambourine restricts climbing height. Clamp permits fast removal & easy adjustment.

00198000

Rope Hoist

Hoist is complete with wall brackets, ceiling attachment, heavy-duty cord and weight. Installs easily, ready to use.

00104000

Safety Guard

Safety guard prevents the rope from falling if a part fails or wears out.

00110000

Rope & Ring Storage Track

Designed to suspend and transport climbing ropes or ring apparatuses to a storage position against the wall for an uncluttered facility appearance. A heavy duty steel track with carriers and operable nylon rope pull system allows for easy operation. A maximum of four ropes may be suspended from one track system. Rope lock system is designed to securely lock a maximum of four climbing ropes to prevent use by unauthorized individuals. Porter climbing ropes sold separately.

GILL
ATHLETICS

**MAKING GREAT
EQUIPMENT
ISN'T EASY.
INSTALLING
IT SHOULD BE.**

Since 1918, Gill Athletics® has been equipping coaches with innovative equipment that elevates the sport and performance of athletes across the globe.

Gill hammer cages have exclusive features that protect athletes, officials, and spectators from errant throws in the hammer event. Combined with an industry best five-year warranty, Gill Athletics keeps your facility at the top of its class in safety and efficiency. Your facility deserves the best.

FRONT DOOR CABLE DESIGN

With Gill's exclusive tensioning cable front door design your cage will increase athlete safety and efficiency in the event. No more bent front pole from errant throws, and decrease the likelihood of bounce backs from implements.

DOOR HINGE LOCK BOLT

Suggested from the top track designer in America, this unique feature keeps your front doors from tweaking and misaligning from the door hatch location.

BLOCK & TACKLE PULLEYS

Block and tackle pulley system to safely remove 'stuck' implements from the nets without climbing.

REAR DOOR ACCESS

Netting System that keeps your athletes away from the throwing sector of the front cage while increasing the speed of repetitions.

502 

ALUMINUM VAULT BOX LID

- Compatible with all Gill vault boxes
- Reinforced with two ½" angled vertical supports to prevent sagging
- 50201: Recessed design to accommodate ½" (12mm) track surface
- 50202: Flush design with no added track surface

50201 Lid-Recessed Mount

50202 Lid-Flush Mount

SANDPIT FORMS & COVERS

Sand pit forms hold more than just sand, they hold value.

With four different options of Sand Catcher locations and two practical Sand Catcher Cover options, you can design the horizontal jump facility that will perfectly meet your needs.

No matter which combination you choose; with the Gill Functional-Form, you can rest assured it's the finest product (with the easiest installation) available.

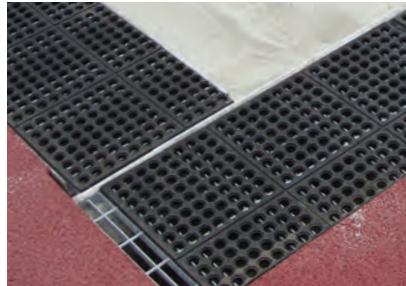

Choose from one of two Sand Catcher Cover systems: traditional grate and mat or Gill (exclusive) Recessed Lid. When you consider the main function of a Sand Catcher system is not to catch sand but to store it, the Recessed Lid system is rapidly becoming the choice of facilities worldwide, as it is designed to receive track surfacing to match your track facility. When coupled with the 730148 Aluminum Sand Pit Cover, a complete logical design emerges for your world class jumps facility.

Choose from one of four sand catcher locations: no sides, two sides, two sides and back, or all four sides. Choosing Sand Catchers on the sides will cut unnecessary costs and eliminate potential trip hazards, providing more than ample storage space for overflow sand.

VERSACOM BOXES

CONNECTING IT ALL TOGETHER

The *VersaCom Box* provides a junction for electricity and cable hookups. This box can be put in virtually any location around performance areas of varying surfaces. The open bottom of the *VersaCom Box* provides adequate drainage and conduit entry, while the hand holes in the cover allow easy access.

- Divider plates in full size version, provided to help keep electrical equipment segregated
- Main box structure is made of 1/4" thick folded aluminum
- Lid is constructed of 1/4" aluminum plates for maximum support and durability

The *VersaCom Box - Synthetic Version* allows material to be bonded or poured onto the top of the lid to match the surrounding surface.

F910 Full Size (30" L X 18" W X 14" D)

F930 Half Size (15" L X 18" W X 14" D)

The *VersaCom Box - Turf Version* features a supplied aluminum top to allow artificial turf to be glued on the jobsite, and is tethered to the box. This top is reinforced with multiple aluminum plates for maximum strength and durability. Factory installed turf infill retention brushes keep infill out of the box.

F960 Full Size (30" L X 18" W X 14" D)

F970 Half Size (15" L X 18" W X 14" D)

BENCHES & BLEACHERS

Benches are aluminum planking attached to heavy steel support frames. Benchseat is 10" wide and available with a powder-coat finish. Seats are 16" high and include back support.

- Non-Slip, Grooved Type Top Surface With Reinforcing Ribs
- 10" Wide Aluminum Alloy Planks
- Galvanized Structural Steel Support Frames

FOOTBALL STOPPER SET

This football stopper set is designed to keep fans and bystanders safe from field goals and extra points. Installed behind each football goal, the 35' x 50' net can be raised and lowered with ease during a game or stationary during practice. Set includes two stoppers (1 for each goal).

F350

ACCESS FRAME KIT

This kit provides effortless access to the base of a football goal for easy installation, adjustment, or removal. The access frame creates a uniform, seamless surface around the goal post for improved safety. Kit includes access frame and pole plugs that fit around a goal post with a diameter up to 6 1/2". For safety, a solid plug is strongly recommended for use when the goal post is removed. Each goal post requires one kit. Blank metal allows track surface application for continuity in D-Zones.

WINDSCREENS

TUFFY® WINDSCREENS

Screens are made with an exclusive durable mesh fabric of tightly woven micro-fibers: it's virtually tear-proof. Tuffy® is the only windscreen finished with double-needle lock stitching, eliminating the thread unraveling problem of traditional windscreens. Includes 5 year warranty, available in 20 colors. Grommets every 12". 78% Shading. Custom Printing available - call for details.

- 912014 *Tuffy® 4' Windscreen, Per Linear Foot*

- 912015 *Tuffy® 5' Windscreen, Per Linear Foot*

- 912016 *Tuffy® 6' Windscreen, Per Linear Foot*

- 912019 *Tuffy® 9' Windscreen, Per Linear Foot*

- 912065 *6' x 5' Ballasted Tuffy® Windscreen*

AER-FLO VCP® WINDSCREENS

Made for 8 oz. vinyl coated polyester mesh with double lock-switch sewn ends/corners. Grommets every 12"; available in Black, Dark Green, Navy, Royal Blue, Red, or Maroon. Includes 2 year warranty. 70% shade. Custom printing available - call for details.

- 912026 *VCP 6' Windscreen, Per Linear Foot*

- 912029 *VCP 9' Windscreen, Per Linear Foot*

LENO WINDSCREENS

Made of leno polypropylene mesh. Reinforcing threads resist tearing, features ultraviolet and mildew inhibitors. Allows 15% wind passage; popular in high wind areas. Available in Dark Green, Black, or Royal, printing not available on this fabric.

- 912036 *LENO 6' Windscreen, Per Linear Foot*

- 912039 *LENO 9' Windscreen, Per Linear Foot*

CLOSED MESH POLY WINDSCREENS

Allowing only 8% wind passage, this screen has both high wind blockage and high visual blockage properties. Heavyweight polypropylene fabric is treated for UV, mildew, and insect resistance. Available in Dark Green or Black, grommets every 18". Air vents and tie downs are recommended. Printing not available on this fabric.

- 912046 *6' Poly Closed Mesh Windscreen, Per Linear Foot*

- 912049 *9' Poly Closed Mesh Windscreen, Per Linear Foot*

Designed to pad the top rail of woven wire fence and minimize injuries to players during outdoor activities.

Pads consist of shock absorbing, closed cell weather resistant polyethylene foam and a polyester reinforced cover with grommets and durable nylon, self-locking type wire ties. Kit is provided in 9 slit sections of 31/2" O.D. x 2" I.D. foam in 28" lengths. The cover is one 20' section, which may be easily cut to provide custom lengths when required. Standard is yellow, available in 14 colors.

Batting Tunnels

SINGLE

330155 55' long
330175 75' long

DOUBLE

330255 55' long
330275 75' long

TRIPLE

330355 55' long
330375 75' long

- ✔ Heavy duty 8⁵/₈" OD steel poles
- ✔ Premium architectural black powder coating
- ✔ Four steel pole, open-cage design creates an open cage and hanging net so balls stop without rebound
- ✔ 1/4" galvanized aircraft quality cable
- ✔ Easy turnbuckle adjustment, and quick clip (snap hook) net attachment
- ✔ #36 weather treated knotted netting, machine sewn stitched rope borders, top center rib line for height control, and double door entry on one end

Batting Cages

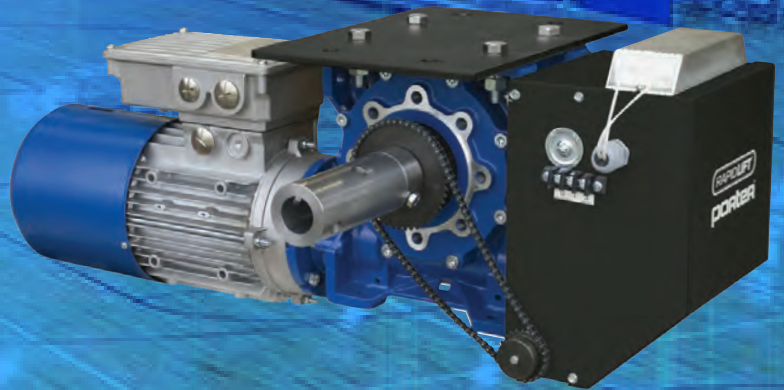

The cage is 10' high x 12' wide and available in either a 50' or 70' length. Netting is constructed of a durable, black UV resistant weather treated nylon with a 1³/₄", #420 square mesh. The net is supported by 2⁷/₈" diameter aluminum uprights to provide lightweight, yet extremely rigid supports. Uprights extend into either outdoor or indoor sleeves and are furnished with ropes, pulleys, and rope cleats to provide ease of set up of the entire system without the use of ladders.

330150 50' Cage (8 Sleeves Required)
330170 70' Cage (10 Sleeves Required)
802025 Outdoor Ground Sleeve (1)

WHEN FAST MATTERS

For facilities hosting multiple back-to-back events, the NEW Porter RAPIDLIFT® winch can help turnover the next activity up to 3x as fast.

See page 62.

Contract #071819-PTA

Sourcewell (formerly NJPA) creates national cooperative contract purchasing opportunities and solutions on behalf of its members which include all government, education and non-profit agencies nationwide. These cooperative contract purchasing opportunities present both time and money savings for users.
