3080 - POWR-SAND GROUND SLEEVE

PLATE MOUNT OUTDOOR GROUND SLEEVE

SPECIFICATIONS

PORTER No. 3080 POWR-SAND GROUND SLEEVE (EACH)

Ground sleeve shall be designed for use with Porter No. 3091 Powr-Sand volleyball poles, as an optional feature when removal of the poles is required.

Ground sleeve shall be fabricated from heavy-walled extruded aluminum. Welded side gussets shall provide additional support. Entire weldment shall be finished in an outdoor quality gray powder coat.

Sand catcher shall be fabricated from heavy-walled extruded aluminum tubing. Entire assembly shall be removable from the ground sleeve, to prevent buildup of sand, water, and debris. Sand catcher shall be finished in an outdoor quality optic yellow powder coat.

Finishing cap shall be provided for protection when system is not in use. Cap shall be fabricated from extruded aluminum tubing. Cap shall be finished in an outdoor quality optic yellow powder coat, and finished with a protective vinyl cap.

Stainless steel anchor bolts, and zinc hardware shall be provided for connection to poured concrete footing.
