00217000 - BACKBOARD ADAPTER KIT

FOR EXISTING SUPPORT STRUCTURES

SPECIFICATIONS

PORTER No. 00217-000 BACKBOARD ADAPTER KIT

Backboard adapter kit shall be designed for use in installing aluminum (No. 00234-000 & 00234-300) and fiberglass (No. 00267-000 & 00226-000) backboards on existing indoor or outdoor support structures that do not mate to the 3-5/8" (9.2cm) centers of the 3/8-16 threaded inserts in the backside of the backboards.

Formed steel channel type adapters (4) bolt to the backside of the backboards on the 3-5/8" centers using special, 3/8-16, plated, allen head type bolts. Channel adapter is furnished with special, plated internal sliding nuts (3/8-16) which allow attaching to existing support structures on backboard extension fittings with maximum mounting centers of 8" (20.3cm). Channel adapters shall be 7/8" (2.2cm) in thickness x 1-5/8" (4.13cm) in width x 9" (22.36cm) in length and be finished in a durable, gray powder-coated finish.

Adapter kit furnished complete with all mounting hardware required for mounting one backboard.
