## ROLLAWAY GAME STANDARDS AND ACCESSORIES

### SPECIFICATIONS

PORTER No. 00431-000 ROLLAWAY COMBINATION GAME STANDARD  
(PAIR)

PORTER No. 00431-100 ROLLAWAY COMBINATION GAME STANDARD  
(EACH)

Upright shall be 1.90 O.D. heavy-wall tubing drilled with sufficient holes for volleyball and badminton. Includes holes for optional attachment reel (02201-100). Each upright shall be supplied with two eyebolts and heavy cast eye nuts for use as end or center standards. Upright shall be finished in durable, gray powder-coated enamel.

The base shall be 24" diameter domed steel design. Entire perimeter of base shall be encased in an endless black rubber, non-marking protection ring which allows the unit to be used indoors or outdoors. Two 3" diameter non-marking casters shall be fixed to base and allow base to be easily tipped and rolled to or from storage area. Base shall be finished in a pit and peel resistant durable gloss black finish. Base shall be equipped with a 2-3/8" O.D. high strength tube for attaching upright. Weight of base is approximately 145 lbs.

PORTER No. 00222-600 PRO-PAD BACKBOARD PADDING KIT FOR OFFICIAL

Net attachment shock cords to be tough, virgin natural rubber, with 1/4" bright plated hooks fixed at both ends. Length of cords to be approximately 18". (Recommended for use with the No. 430 standards listed above.)
