NET ANTENNAS AND BOUNDARY MARKERS

SPECIFICATIONS

PORTER No. 2296 COMPETITION NET ANTENNA (PAIR)

Net antenna shall be designed and assembled at the factory into a single unit construction to assure there are no loose parts, which may be disassembled or lost. Antenna assemblies shall be designed with unique molded plastic clamps with a special wedge and screw type mechanism for securing to the top and bottom net hems from the floor without the aid of a chair or stepladder.

Antenna (3/8" dia. x 6' lg.) (9.5mm x 1.83m) shall be furnished in a high tensile strength, extruded fiberglass material. Antenna shall be alternately marked with white and red stripes the entire length and shall be finished in a clear epoxy type finish for maximum durability.

PORTER No. 02297-000 VOLLEYBALL NET BOUNDARY MARKERS (FOR USE WITH No. 2296 NET ANTENNA)

Boundary markers shall be of 2" (5.1cm) wide durable white polyester reinforced vinyl material with white Velcro attachment strips sewn in place for securing to any competition volleyball net.
