

POWER-TOUCH® 5

POWERED BY S.C.O.R.E. TECHNOLOGY

Screen Control Operation of Retractable Equipment

COMPLETE CONTROL. AT YOUR FINGERTIPS.

The **POWER - TOUCH® 5** has claimed its place at the top of the podium, joining Porter's strong line of breakthrough gymnasium control systems. POWER - TOUCH® 5 features the most innovative, yet intuitively simple design in the industry today. POWER - TOUCH® 5 has been **optimized for wireless control**, operating on a local intranet zone. This is a system that puts control directly in the operator's hands, with the opportunity to manage an **unlimited number of devices**. Utilizing Porter's S.C.O.R.E. technology, users can operate the POWER - TOUCH® 5 from virtually any electronic device with wireless network capabilities. This means improved efficiency and unprecedented functionality in the management of your facility.

POWR-TOUCH® 5

POWERED BY S.C.O.R.E. TECHNOLOGY

QUICK

The Powr - Touch® 5 *Quick Court* feature allows users to program and edit multiple memory settings within the device. Common equipment setups can be recalled at the touch of a button.

S.C.O.R.E. technology is the ONLY gymnasium control technology that allows simultaneous up and down equipment movements to occur. Whatever the desired configuration may be, Powr - Touch® 5 makes it happen...fast.

SIMPLE

So much ingenuity- all packed into one simple, intuitively designed interface. Powr - Touch® 5 has been engineered to make facility management easier than ever.

Porter customizes each graphic interface on a project-by-project basis, ensuring that the Powr - Touch® 5 is optimized for each user's needs.

Equipment areas can be "zoned", so that multiple pieces of equipment can be operated at once by engaging a single slider control button.

SAFE

With wireless control capability, operators can easily maintain constant interaction with the equipment they are controlling.

Powr - Touch® 5 responds immediately to the controller's actions, ensuring safety in the operation of equipment. By releasing the slider control button, activated equipment stops immediately.

COMPLETE

Powr - Touch® 5 works on projects of ANY size. This is the only system in the industry that can control an unlimited number of devices. With customized equipment zoning, the interface remains simple for those users operating large facilities.

Not only can the Powr - Touch® 5 be integrated with any piece of equipment from Porter Athletic, it can also be used to control on/off power for up to 8 auxillary devices. This presents an opportunity to power athletic equipment, lights, scoreboards, ceiling fans, and more...all from one interface.

ALWAYS INNOVATIVE. ALWAYS QUALITY. ALWAYS PORTER.
