02405-000 - POWER WINDER

POWER WINDER FOR No. 2400 FLOOR COVER SYSTEM

SPECIFICATIONS

PORTER No. 02405-000 PORTABLE POWER WINDER FOR No. 2400 FLOOR COVER SYSTEM

Compact (3-1/8" x 7" x 20"), heavy-duty power winder shall provide an alternate means to the hand cranks provided as standard with the No. 24XX Floor Cover Storage/Transport Cart.

Motor (115-volt, 15 amp) is double-insulated (grounded out let not required) and failure-protected to withstand high overload temperatures. Power Winder is provided with a durable, heavy-duty plastic motor housing and a die-cast aluminum, permanently greased gear head assembly unit. Power Winder is also provided with a heavy-duty, snap-in type removable drive adapter which inserts into the end of the batten tube assemblies of the No. 24XX Floor Cover Storage/Transport Cart for ease of rolling floor cover material.

Power winder shall roll approximately 60 feet per minute of floor covering on the batten tube assemblies of the storage/transport cart.

Power Winder shall be provided with a heavy molded plastic carrying case.

Weight of unit is 12 lbs. (5kg).
