**IMPORTANT NOTE** - Check net height settings at both court lines to ensure that net is level before applying net height labels on inside upright assembly.

**CAUTION** - Net height dimensions given allow for maximum allowable net sag. Overtightening of the net could cause possible equipment damage or failure, and void all warranties.

## SAFETY INSTRUCTIONS

- Read all instructions before use to avoid injury.
- Improper use of product can result in serious injury.
- Read all product safety labels.
- Keep this instruction manual for future reference.

### **WARNING**

- Serious injuries, including permanent paralysis, can occur in volleyball. Such can be caused by falls on the head, neck and other parts of the body, or by running into unpadded volleyball standards. Approved upright padding is mandatory.
- While it cannot be eliminated, the risk of injuries can be greatly reduced by following proper safety guidelines and providing proper maintenance and safety inspections.

### **CAUTION**

- Never attempt to remove the height adjuster pin if the net is under tension.
- Securely hold the inner upright when adjusting the pole height. Do not let it drop.
- Cable tension must be released before adjusting net height. Failure to do so may cause damage to the equipment, or cause personal injury.
- Under no circumstances should volleyball standards be stored leaning against a wall or other rigid objects.
- Lay volleyball standards down unless they can be securely fastened to a stable object or properly positioned in a storage rack specifically designed for volleyball standards.

### **NOTICE**

- Inspect this equipment for wear, loose fittings, damage and proper stability before each use. Replace defective or worn parts immediately. If in doubt, do not use this equipment until repaired.
- Do not over tighten the volleyball net, as damage to uprights may result and void all written or implied warranties.

 **WARNING:** Cancer and Reproductive Harm –

## No. 2093 POWR-CARBON II VOLLEYBALL END STANDARDS ASSEMBLY and INSTALLATION INSTRUCTIONS

1. Unpack all parts and check against parts list to ensure that all have been included. Uprights will come pre-assembled.
2. Place assembled standards in floor sleeves. If floor sleeves are 3.5" OD please contact Porter for sleeve adaptors. With the standards in place, rotate upright so the winch faces the outside of the court. See Page 1.
3. Remove the pull pin from each upright and set them to the correct height. If ground sleeves were installed too deep, adjustable foot can be unscrewed to achieve the correct net height.
4. Attach the net using instructions provided in the net box.

5. Attach and tighten net straps to complete installation.
  6. The winch will come pre-assembled, attached and tightened on one of your standards.
- Before play, confirm the winch is fully secured and tightened down.
